SUMMARY

Full-Stack Developer with expertise in JavaScript, Typescript, PHP, and Node.js. Skilled in building seamless, high-performance applications using modern frameworks and libraries. Currently seeking a Full-Stack Engineer role in a forward-thinking company where I can contribute to impactful, innovative software projects.

WORK EXPERIENCE

Junior Frontend Developer (Xenoptics Co.,LTD, THAILAND) Oct 2023 - Present

- Developed and maintained **Network Management System (NMS)** and **Element Management System (EMS)** for monitoring and managing networked machines.
- Designed and implemented user-friendly interfaces and **interactive visualizations for real-time** monitoring of machine statuses, performance metrics, and alert notifications using the **ATOMIC DESIGN PATTERN**.
- Tech Stacks: **Typescript, ReactJS, Redux, CytoscapeJS, Canvas, Docker**
- Methodologies: **Agile, Scrum**

Software Engineer (Brycen Myanmar Co.,LTD, MYANMAR) Aug 2022 - Sept 2023

- Developed and contributed in the following projects:
 - **HR Management System**
 - **Online Booking System**
 - **Resume Management System**
- As a Full-Stack software engineer, I was responsible for developing user-friendly interfaces and building robust backends to support the specific features of each project, ensuring technical feasibility and alignment with the goals.
- Tech Stacks: **ReactJS, Laravel, Redis, DigitalOcean, SocketsIO, NodeJs**
- Methodologies: **Agile, Scrum**

Frontend Developer - Internship(Brycen Myanmar Co.,LTD, MYANMAR) May 2022 - Aug 2022

- As a frontend developer intern, I received training in the following articles:
 - Security basics
 - Networking
 - Javascript
 - ReactJS
 - Coding Standard, Unit testing and Combined testing
 - Git
-
